Wednesday, May 24, 1893.

There is a probability that a law will be passed by the Legislature of Michigan making death the penalty for murder. The bill has passed one house.

A fire at Saginaw, Saturday, destroyed over \$1,000,000 worth of property, including mills, factories, nearly 300 dwellings, and twelve million feet of lumber.

The attendance at the World's Fair has not averaged 30,000 per day since the fair was opened. To pay the running expenses will require an attendance of 90,000 per day.

The U. S. Supreme Court has declared the Geary anti-Chinese law, passed by Congress, to be constitutional. The law provides that every Chinaman in the United States must be registered and file a photograph, as well as have a white man indorse him as legally entitled to be registered. Those not registered must leave the country.

The past week has been a memorable one for women, and commences a new era in the struggle of the fair sex to take a prominent part in the active government of the world. A number of congresses of women, have been held at Chicago, leaders of which are the notable women of the civilized world. The sessions of the congress have been so largely attended that a number of halls were needed to hold all those who desired to be present.

The Congressional apportionment bill, passed by the Senate, at Lansing, on the 18th, and which is likely to become a law, places Alpena county in the Eleventh district, which district comprises one-quarter of the lower peninsula, containing 22 counties. The vote cast in the counties comprising the new district, at the election last November, was: Democratic, 16,651; Republican, 19,010. The population is 175,002. As far as the Eleventh district is concerned, it is an outrageous gerrymander.

A Business Administration.
Secretary Hoke Smith has reduced the expenses of the Census Bureau by \$8,000 a month. Secretary Gresham has dismissed a large number of incompetent and superfluous clerks. If things go on in this way we shall presently have the Government paying only for what it gets in the way of service and exacting a competent and faithful service in return for salary, no matter how much pull a clerk may have or how necessary it may be to somebody to "take care of him."—New York Herald.

Dullness Begets Dullness.
Do you tell us, O candidate for the custom of the community, that you can't afford to advertise because your business is dull? Listen! It is dull because you don't advertise, and you don't advertise because it is dull, so the vacant circle is complete. We tell you if you are doing all to advertise that you may do well, and if you are doing well advertise that you may do better.—Prentice.

The report received from Lansing last Saturday was not a pleasant one to Alpena Democrats. It stated that City Attorney Greening had written a dispatch, claiming it had come from Casper Alperin, in regard to the city charter bill, and presenting the bogus dispatch to the committee. Mr. Greening was placed under arrest by the sergeant-at-arms, brought before the committee, admitted having written the dispatch, and was then released from custody. Mr. Greening's side of the story has not been heard, and we trust he may be able to explain the matter satisfactorily to the party that has honored him with an important and lucrative office. If we understand the Alpena Democracy, they will not endorse any such action as Mr. Greening is charged with, or such illegal methods as bogus dispatches.

New Process of Electroplating.
A discovery which promises to be of great importance in the arts has recently been made in connection with the electro-deposition of copper and other metals. Heretofore these processes have been carried on by immersing the metal intended to receive the deposits in an aqueous solution of salt of the metal to be deposited. The new process makes use of insoluble salts of the various metals, which are reduced to fine powder and mechanically mixed with water. The mixture is applied to the surface of the metal by means of a brush to the handle of which is attached the electric conducting wire, so that the process of deposition resembles that of applying a coat of paint. Not only pure metals, but all sorts of alloys are applied as coatings to other metals with the utmost facility by this process. The hull of an iron ship, for example, may be painted over with a tough, adherent, and impervious coating of metallic copper, or any desired thickness. Experiments have been made which indicate that this process may be successfully applied to the plating of aluminum which has long been sought for, but hitherto apparently in vain.—Engineering Magazine.

State Votes Canvassed.
The canvass of the votes cast for State officers, at the election held April 3d, 1893, was completed by the Board of State Canvassers on the 18th, and their returns show the number of votes cast for the various candidates was as follows:
For Justice of the Supreme Court,
